Kathy Pike Honored with Outstanding Achievement Award

(November 22, 2010) Kathy Pike, MS, MSN, RN-BC was honored with the

Outstanding Achievement Award through the Kansas Association of Health Education Coordinators presented at the Kansas Hospital Association State Conference.

Pike has been involved in nursing since 1974 and is the director of organizational development at Salina Regional Health Center.

The award is in recognition of Pike's vision and integration of simulation into the nursing staff and nursing student development processes. She was instrumental in the implementation of this concept at Salina Regional Health Center. She not only had the vision, but applied for and attained funding to purchase simulation equipment. In addition she has assisted others in understanding this concept through her local, state and national presentations.

The distinguished Outstanding Achievement Award is reserved for those who demonstrate vision and energy to improve the quality of education and patient care.
